The Committee is in the process of reviewing its accounts and have determined that it needs to file amendments to certain reports. We determined that the in-kind donations were not being included in the reports because of an unintentional error in how they were added that prevented them from pulling to the report. We have fixed this and they now are included in the reports. In addition some disbursements were unintentionally omitted from the original report. We have included those in these amendments.

We are filing amendments to the following reports with the included changes:
